PROFESSIONAL SUMMARY

Motivated junior data analyst who learns by building real-world projects. Experienced creating dashboards and analytics solutions using Excel, SQL, Power BI, and Tableau to transform raw data into actionable insights. Backed by 115+ hours of Microsoft Excel training and additional coursework in SQL, Python, and Power BI. Known for documentation, analytical problem solving, dashboard design, and translating complex technical challenges into clear, data-driven solutions. Seeking remote Data Analyst, Reporting Analyst, Business Analyst, or Excel-focused roles.

FEATURED PROJECT

The Licensing Labyrinth — Cross-Platform Data Analytics Case Study | Personal Project • 2026

- Designed and published interactive dashboards in Power BI and Tableau Public analyzing 24 Microsoft licensing attempts, revealing an 83.33% failure rate and the primary billing root cause.
- Performed SQL-based analysis to identify billing conflicts, support escalation trends, error distributions, time-loss by category, and frustration trends.
- Built KPI measures, dashboards, and documentation using Excel, SQL, Power BI, Tableau, and GitHub, publishing a complete analytics case study with live Tableau Public and Power BI reports.

TECHNICAL SKILLS

Microsoft Excel: PivotTables, VLOOKUP/HLOOKUP, SUMIFS, IF/OR logic, Goal Seek, data validation, conditional formatting, charts, formula auditing, VBA/macros exposure

Data & Reporting: Data entry, data cleaning, data verification, data quality checks, dashboard building, spreadsheet organization, basic reporting

Database Basics: SQL fundamentals — SELECT, WHERE, GROUP BY, JOINS, aggregate functions

Learning in Progress: Power Query, Power BI Desktop, Python fundamentals

Tools & Platforms: Microsoft 365, Excel, Power BI Desktop, Tableau Public, SQL, Git, GitHub, Visual Studio Code, Canva, Hostinger, NotebookLM

AI-Assisted Workflows: ChatGPT and Claude for research, problem-solving, documentation, and project planning

Strengths: Analytical problem solving, dashboard design, data storytelling, documentation, attention to detail, organization, research, bilingual English/Spanish

PROJECTS

Project Management Board — Automated Excel Dashboard | Personal Project • 2026

- Built a multi-tab Excel project tracker with a live dashboard that updates task counts, completion rates, and priority breakdowns using COUNTIF, COUNTIFS, and COUNTA formulas.

- Created dynamic deadline tracking with nested IF and TODAY() logic to calculate days remaining and flag completed tasks.
- Used data-validation dropdowns, conditional formatting, and cross-sheet references to keep task data organized, consistent, and easy to review.
- Designed a user guide and structured workbook tabs for tasks, timeline, team tracking, and dashboard review.

Tableau Transactions Dashboard | Personal Project · 2026

- Built an interactive Tableau dashboard analyzing product sales, top locations, and monthly quantity trends using calculated fields and interactive visualizations.
- Applied dashboard design principles to create a clean, recruiter-ready visualization project published alongside a GitHub repository.

ScramblioApp — Multi-Tool Web App | Founder & Developer · 2025–Present

- Designed, built, and maintain scramblioapp.com, a live web app offering tools including a word unscrambler, budget calculator, and word counter.
- Manage the project independently — development, hosting through Hostinger, deployment, content updates, and basic SEO/analytics improvements.
- Apply self-directed learning, troubleshooting, and documentation habits to improve the app and expand technical skills.

NoteBoard — Personal Web App | Personal Project · 2025

- Built and deployed a browser-based note-taking app with real-time note creation, editing, and management.
- Designed the full UI independently and managed deployment through Hostinger, reinforcing front-end and self-publishing workflow skills.

CERTIFICATIONS & TRAINING

- Diploma in Microsoft Excel for Beginners & Experts — Alison, 2026 | 85% | 58+ study hours
- Mastering Data Analysis Using Microsoft Excel — Alison, 2026 | 84%
- Microsoft Excel Training for Beginners — Alison, 2026 | 84%
- Data Entry Tools and Techniques — Alison, 2026 | 84%
- SQL for Beginners — Alison, 2026 | 96%

- Introduction to Analysis with Power BI Desktop — Alison, 2026 | 83% | 22+ study hours

EARLIER EXPERIENCE

Proxy Solicitor — Shareholder Communications | New York, NY · approx. 1993–1997

- Coordinated shareholder communication efforts with banks, brokers, and financial representatives during proxy voting campaigns.
- Organized account information, tracked response activity, and communicated time-sensitive follow-up details.
- Handled confidential shareholder information professionally by phone and email, with accuracy and discretion.
